with those willing to risk!

The Fresno Police Chaplaincy and the Fresno Police Department are helping bring hope to our community through Project STEALTH, an advocacy and mentorship program designed to assist our city's youth and their families who are experiencing challenges (runaways, domestic violence, and family dysfunction). Project Stealth serves youth ages 12-18.

Connect youth with a caring adult to offer hope and direction for their future. This one-on-one relationship can have a transformative impact on the life of the youth.

### ■ **Advocacy**

Assist and empower youth in problem solving strategies and development of a guidance plan for their future (e.g. accompanying them to Juvenile Court proceedings or academic meetings).

### ■ **Education - Voices**

An 18-week therapeutic class that fosters self-discovery and empowerment for adolescent females. This program focuses on important issues such as self-esteem, positive relationships, and healthy living.

### ■ **Referrals**
